

Phase 7 – Project Documentation Phase

PROJECT: EduGenie – Google Gemini Powered Learning Assistant

OBJECTIVE

To document the project clearly so that users, developers, and evaluators can understand the purpose, architecture, implementation, usage, and results.

DOCUMENTATION CONTENTS

• **Project title and description**

- Problem statement
- Objectives
- Functional requirements
- Technical requirements
- System architecture
- Module descriptions
- API endpoints
- Folder structure
- Installation steps
- Running instructions
- Testing procedure
- Application screenshots
- Results
- Conclusion
- Future enhancements

INSTALLATION AND RUNNING PROCEDURE

1. Install Python 3.10 or later.

2. Install the required packages.
3. Configure the Gemini API key securely.
4. Run the application using:

`uvicorn mainapp --reload`

5. Open

`http://127.0.0.1:8000`

6. Select a task and enter the required input.

7. Submit the request and view the result.
