

Phase 8 – Project Demonstration Phase

PROJECT: EduGenie – Google Genini Powered Learning Assistant

OBJECTIVE

To demonstrate the complete EduGenie application and show how each major feature supports student learning.

DEMONSTRATION PROCEDURE

Step 1 – Launch the Application

Run:

`uvicorn mainapp --reload`

Open:

`http://127.0.0.1:8000`

Step 2 – Demonstrate Question Answering

Enter a question and submit it. Show the AI-generated answer.

Step 3 – Demonstrate Concept Explanation

Enter a complex topic and select Explain. Show the simplified explanation.

Step 4 – Demonstrate Summarization

Enter a long paragraph and select Summary. Show the concise result.

Step 5 – Demonstrate Quiz Generation

Enter a topic and select Quiz. Show the generated questions, four options, and correct answers.

Step 6 – Demonstrate Learning Recommendations

Enter a topic and select Recommend Path. Show the learning path from beginner to advanced level and the suggested resources.

EXPECTED DEMONSTRATION OUTCOME

The demonstration should show that EduGenie can:

- **Answer questions.**

- Explain complex concepts simply.
- Generate quizzes.
- Summarize educational content.
- Provide personalized learning recommendations.

CONCLUSION

EduGenie is a lightweight AI-powered educational assistant that combines a simple web interface with AI-based learning features. It supports question answering, concept explanation, quiz generation, summarization, and personalized learning paths.
